

cut corners
ignore in an unfriendly way

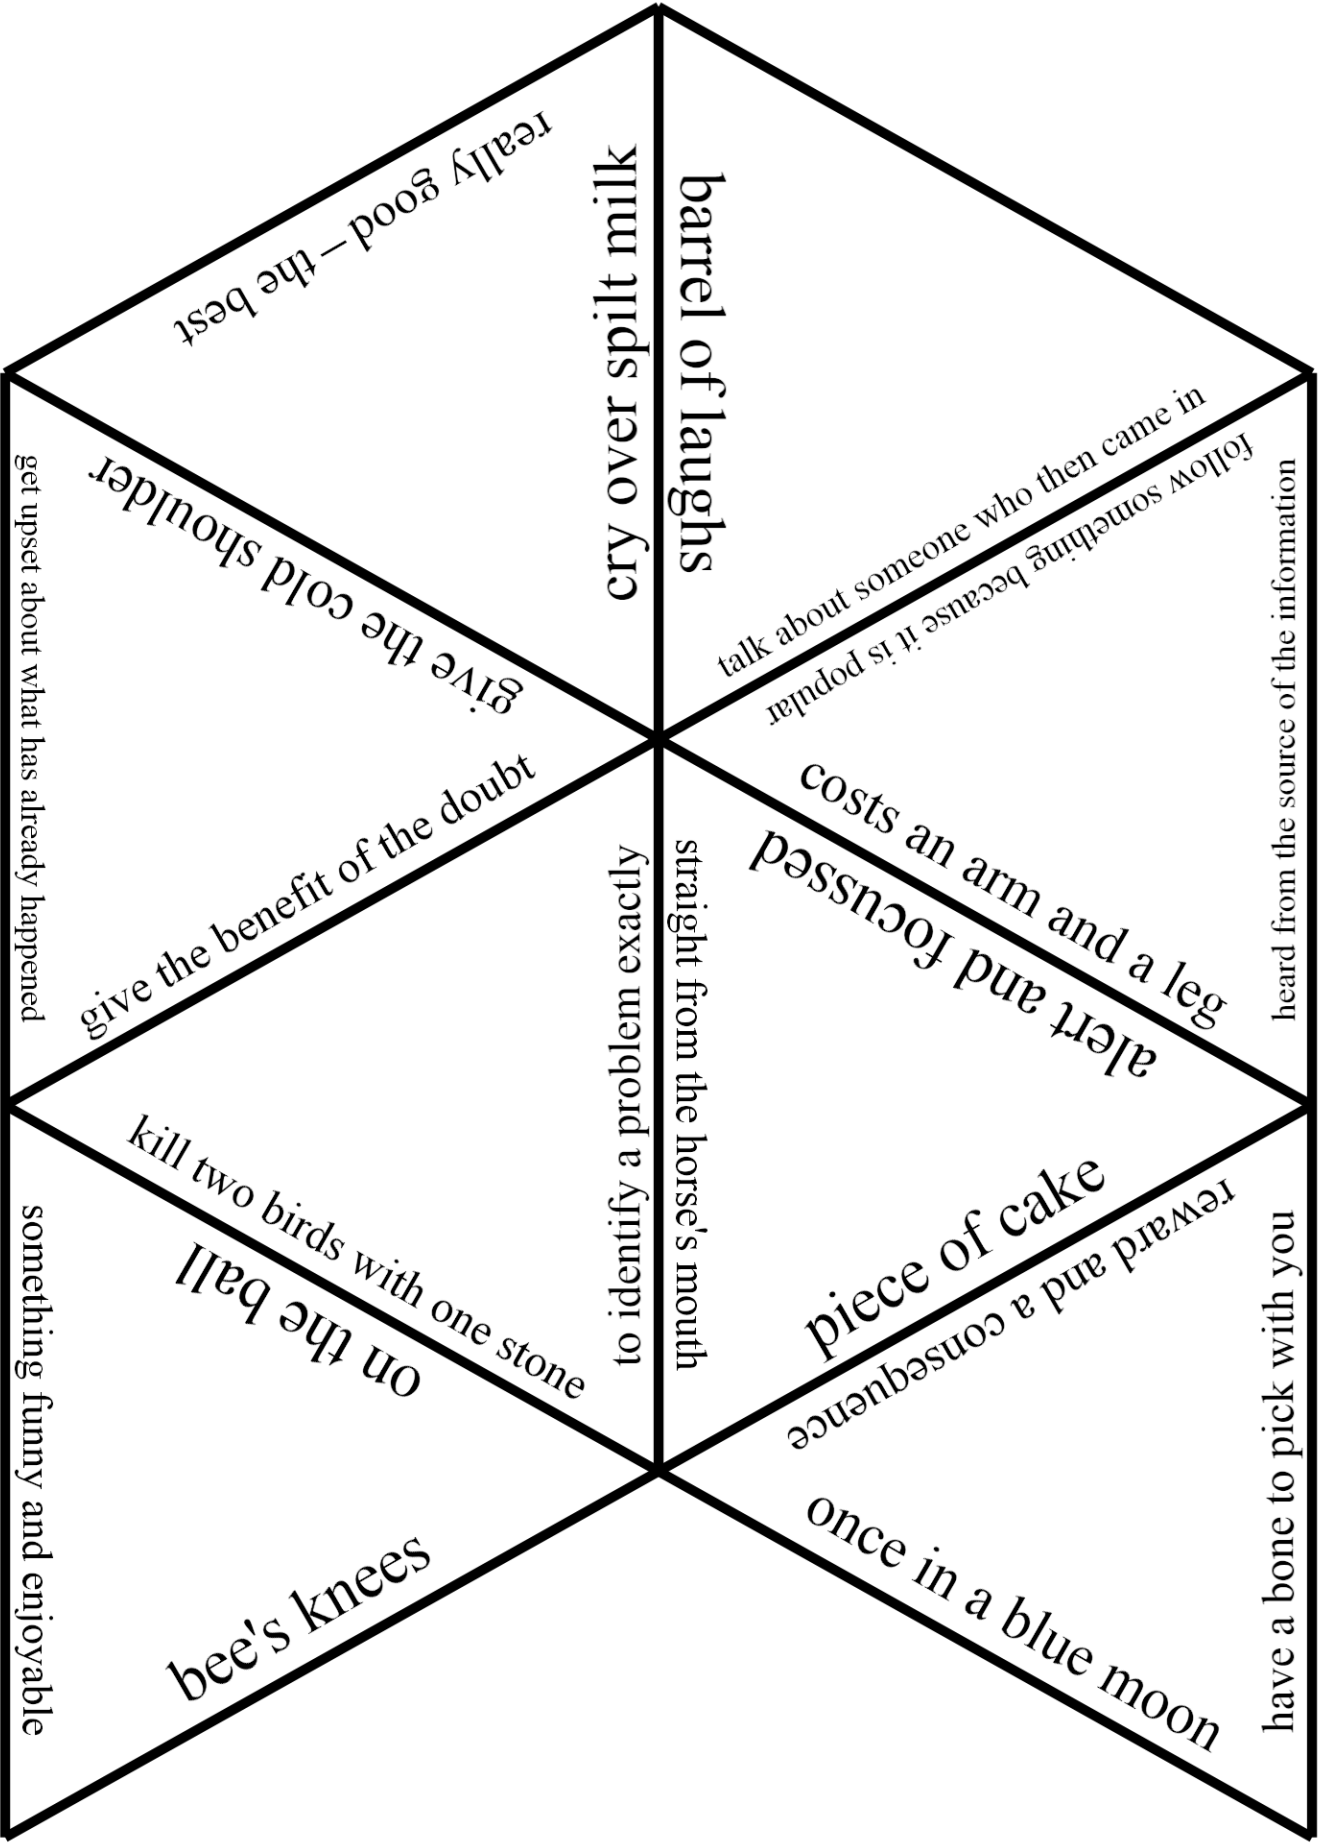

jump on the bandwagon
carrot and a stick

is very expensive
very rarely if ever

there is something I need to complain about
on cloud nine

speak of the devil
complete two tasks with one action
extremely happy

believe the best about someone
very easy
hit the nail on the head
complete a task cheaply but with less quality

really good—the best

barrel of laughs

cry over spilt milk

give the cold shoulder

talk about someone who then came in
follow something because it is popular

give the benefit of the doubt

costs an arm and a leg

alert and focused

get upset about what has already happened

heard from the source of the information

straight from the horse's mouth

to identify a problem exactly

kill two birds with one stone

piece of cake

reward and a consequence

something funny and enjoyable

bee's knees

once in a blue moon

have a bone to pick with you
