

My Electricity Book

SMARTY SAYS:
"ALWAYS HOLD ON TO PLUG
WHEN REMOVING CORD
FROM WALL OUTLET."

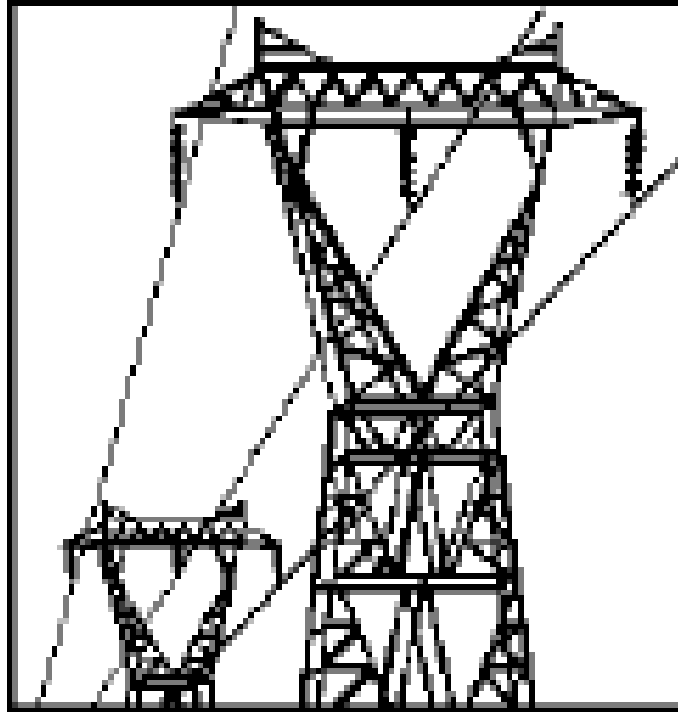

What is Electricity

Electricity makes things work.

Draw 6 things in your classroom that need electricity to work.

Where does the electricity come from?

Electricity travels along the _____

How do we get the electricity to make things work.

The power lines send the electricity to the sockets

Draw the socket on the wall that we get the electricity from.

Battery Power

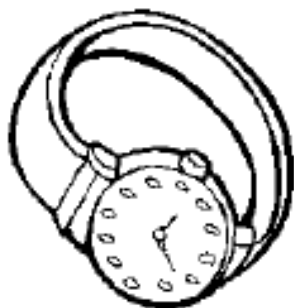

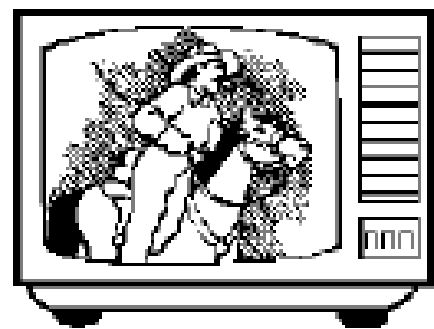

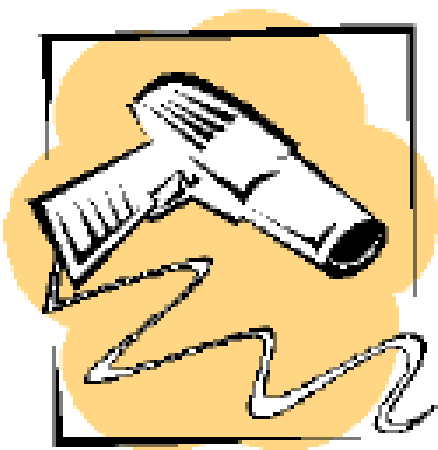

Electricity comes from a battery. It is put in the battery.

Draw 6 things that use a battery to work.

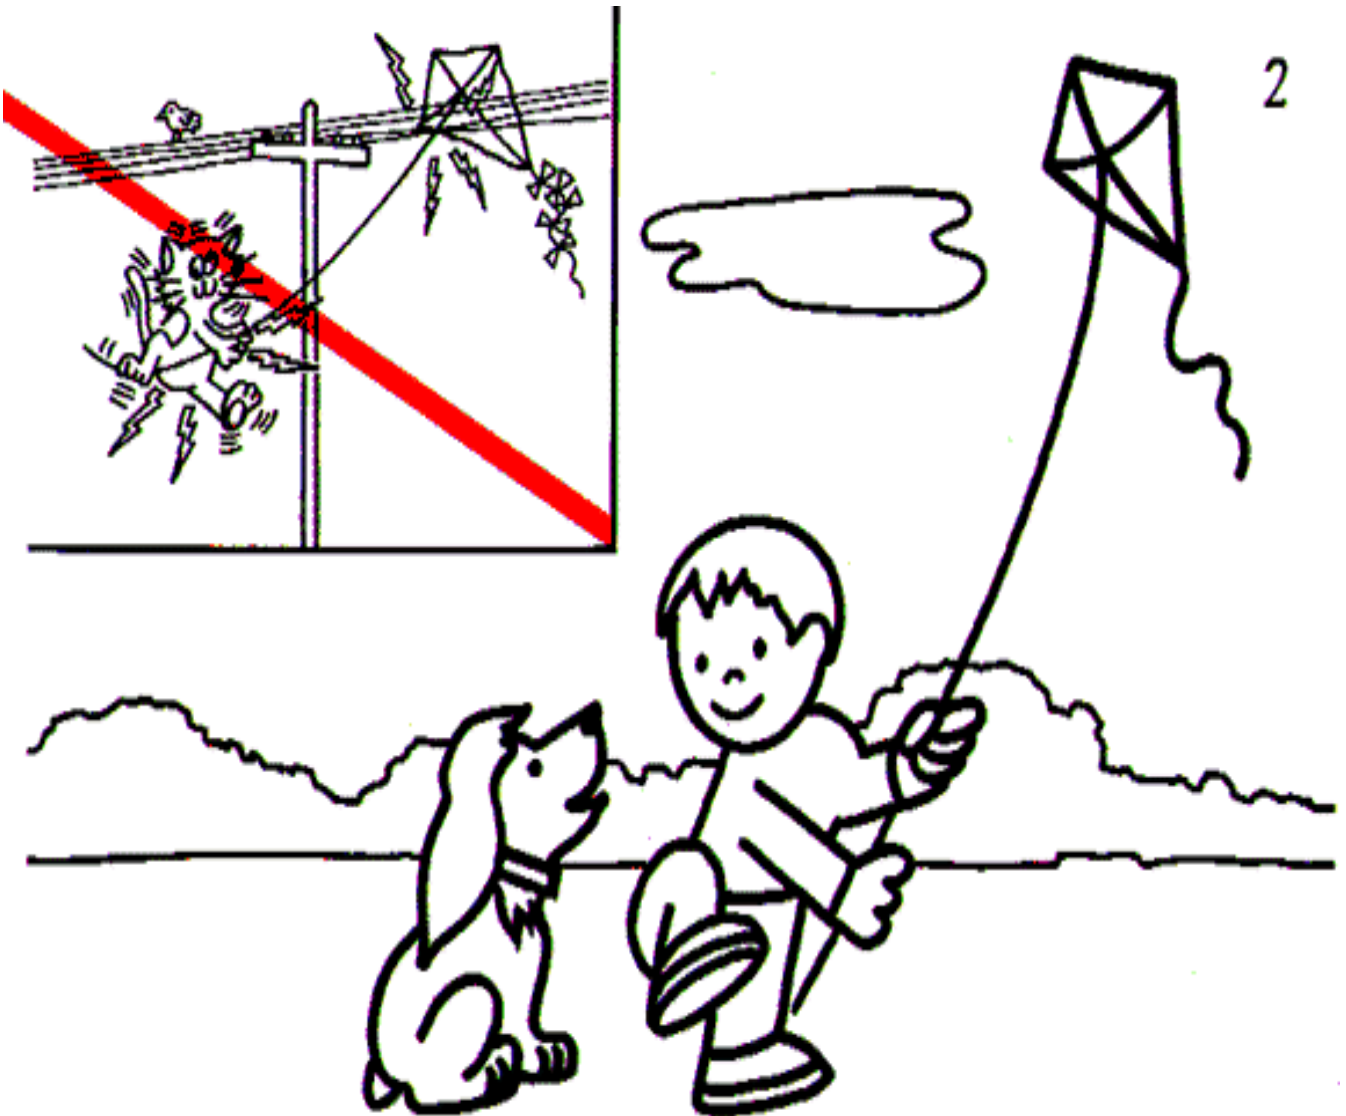

Battery or Electricity?

Match the things to the right source of electricity

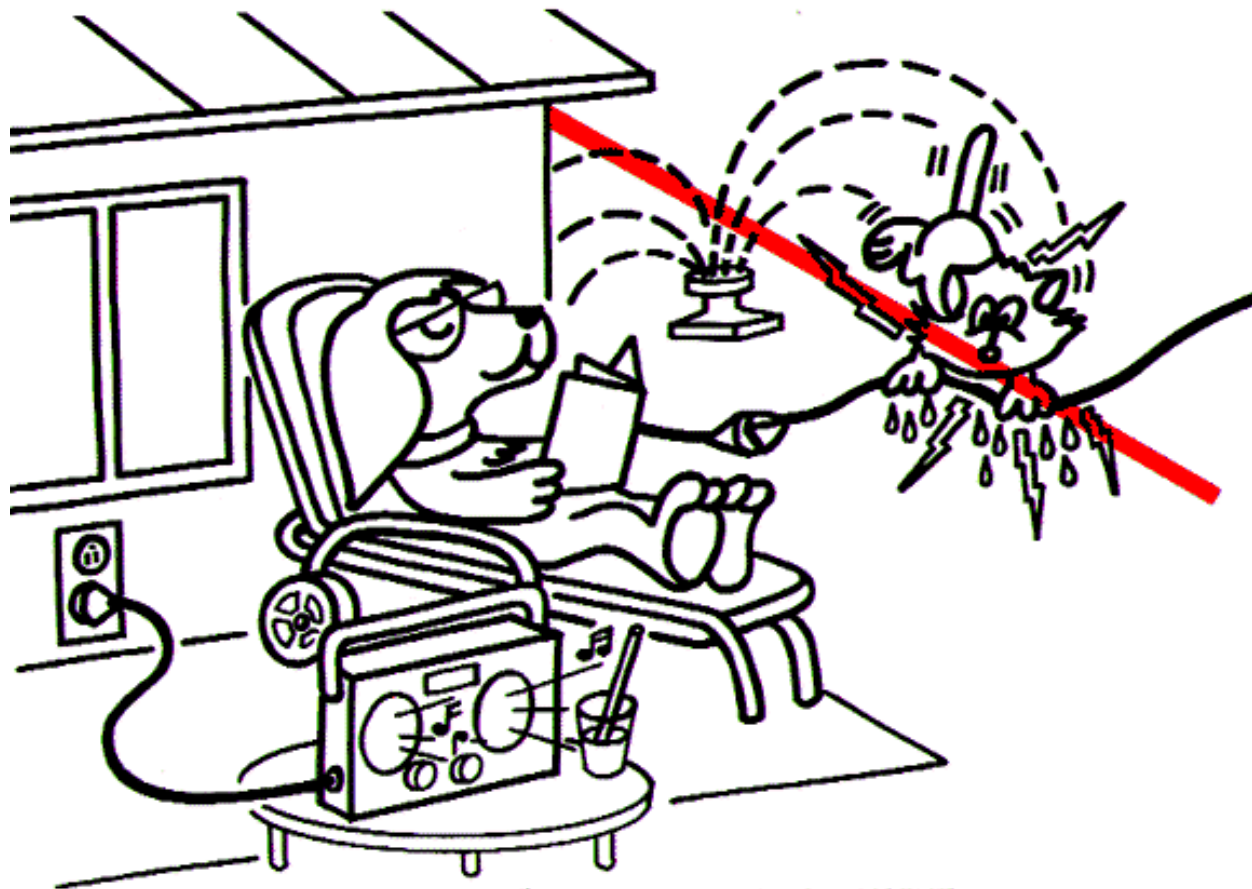

Being safe around electricity

Electricity is dangerous. Colour in the pictures to remind you of the things you must not do around electricity.

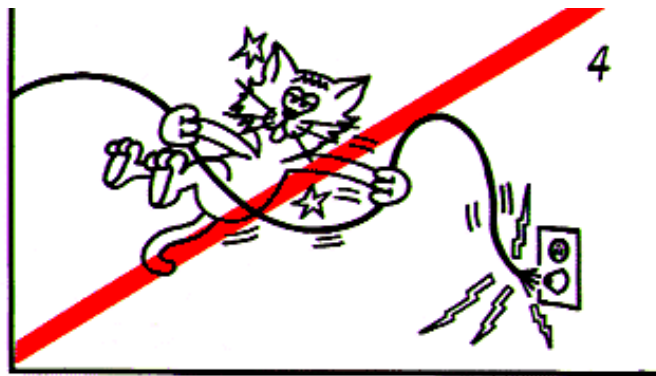

**SMARTY SAYS:
"ALWAYS FLY KITES AWAY FROM POWER LINES."**

SMARTY SAYS: "KEEP ELECTRIC EQUIPMENT AWAY FROM WATER."
