

Name:

Date:

1. Write this number in words 100 000

2. What is $\frac{1}{10}$ of 560?

3. Multiplying by 25 is the same as:

- a) multiplying by 100 then dividing by 4
- b) multiplying by 100 then halving
- c) multiplying by 100 then subtracting 25
- d) multiplying by 100 then subtracting 50

4. Two thirds is the same as:

- a) $\frac{4}{9}$
- b) $\frac{6}{12}$
- c) $\frac{3}{10}$
- d) $\frac{4}{6}$

5. $40 \div 100$ is the same as

- a) 4.00
- b) 0.04
- c) 0.40
- d) 4.40

6. What is the name of this triangle?

- a) isosceles
- b) equilateral
- c) scalene

7. How many millimetres in 1 metre 50 cm?

- a) 150
- b) 1500
- c) 15 000
- d) 15

8. What does this number say? 8050

- a) eight thousand and fifty
- b) eight hundred and fifty
- c) eight thousand and five
- d) eighty thousand and fifty

9. How many centimetres in $\frac{3}{4}$ metre?

- a) 7500
- b) 75
- c) 250
- d) 750

10. How many degrees in a right angle?

11. What fraction is coloured

in ?

12. Multiply by 10

- a) 47
- b) 5.2
- c) 63.1
- d) 5000

13 a) Double each number

46	32	99	54	85

13 b) Halve each number:

24	36	51	92	86

14. Calculate three fifths ($\frac{3}{5}$) of 20, 50 and 120

15. Calculate: 30×5 82×4 32×4 54×5

Level 1 – 0 – 5
Level 2 – 6- 9
Level 3 – 10 -16
Level 4 – 17 -20

Answers:

1. One hundred thousand
2. 56
3. x 100 divide by 4
4. $\frac{4}{6}$
5. 0.40
6. scalene
7. 1500
8. eight thousand and fifty
9. 75
10. 90
11. $\frac{2}{8}$ or $\frac{1}{4}$
12. 470 52 631 50000
13. 92 64 198 108 170
- 13 b 12 18 25.5 46 43
- 14 12 30 72
- 15 150 328 128 270
16. 116
17. 16
18. 113
19. 19
20. 18
