

Name:

Date:

Measure the following items around the classroom. Measure them to the nearest centimetre and to the nearest millimetre and fill in the table.

Item	Measurement to the nearest cm	Measurement to the nearest mm
Top of your maths book		
Your pencil		
The length of your shoe		
The length of your pencil case		
Your hand span		
A glue stick		
A board pen		
The width of a whiteboard		
The width of a book from the bookshelf		
The length of this worksheet		

Do you think centimetres or millimetres are more accurate to measure with? _____

Why? _____
