

Player A

Calculate the answers to these questions and colour the answer yellow. Your mission is to work together to see how many squares you can colour in the given time.

$600 + 70 + 7 = \underline{\hspace{2cm}}$

$70 + 1 + 200 = \underline{\hspace{2cm}}$

$358 + 411 = \underline{\hspace{2cm}}$

$181 + 258 = \underline{\hspace{2cm}}$

$258 + 588 = \underline{\hspace{2cm}}$

$472 + 627 = \underline{\hspace{2cm}}$

$217 + 86 = \underline{\hspace{2cm}}$

$836 + 936 = \underline{\hspace{2cm}}$

$682 + 654 = \underline{\hspace{2cm}}$

694	1408	271	812	465	601
1336	1099	558	1772	1218	922
1175	1581	1315	801	1527	407
1006	769	439	1463	1056	1420
930	1121	1217	962	677	813
303	844	1124	1085	963	1153

Use Numicon to help you become a super mathematician!

Player B

Calculate the answers to these questions and colour the answer green. Your mission is to work together to see how many squares you can colour in the given time.

$600 + 90 + 4 = \underline{\hspace{2cm}}$

$9 + 30 + 400 = \underline{\hspace{2cm}}$

$234 + 231 = \underline{\hspace{2cm}}$

$402 + 199 = \underline{\hspace{2cm}}$

$576 + 346 = \underline{\hspace{2cm}}$

$591 + 222 = \underline{\hspace{2cm}}$

$379 + 584 = \underline{\hspace{2cm}}$

$185 + 745 = \underline{\hspace{2cm}}$

$645 + 763 = \underline{\hspace{2cm}}$
