

Investigating Instruments

In your groups look at the materials on each table and answer these questions:

Activity 1

Experiment with the materials to see what type of instrument you can make, what is the name of the type of instrument?

Draw and label below how you would make this instrument:

Activity 2

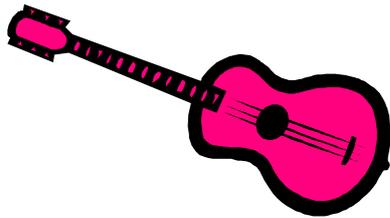

Experiment with the materials to see what type of instrument you can make, what is the name of the type of instrument?

Draw and label below how you would make this instrument:

Activity 3

Experiment with the mat
make, what is the name of the type of instrument?

Draw and label below how you would make this instrument:

Activity 4

Experiment with the materials to see what type of instrument you can
make, what is the name of the type of instrument?

Draw and label below how you would make this instrument:
