

# The Dare Game by Jacqueline Wilson

Jacqueline Wilson's books have been short-listed for and won more book awards than any other children's writer, living or dead. Her books are translated into many other languages and are borrowed from public libraries more than any other writer, adults' or children's, living or dead.

Write a about why you think this might be, what you enjoyed about the book and what you have enjoyed about any of her other books. Say what you think makes them so popular. You could include comments about the illustrations, size of print, what her stories are about, how realistic they are, what her characters are like, how long the books are, how enticing the titles are and anything else you think of.
