

# The Deathwood Letters

by Hazel Townson

1. The book consists only of letters. What do you think about this format?
2. On what date was the first letter sent and why was it sent?
3. Write a little about each of the two letter- writers, showing how different their home backgrounds were.
4. Do you think they have made a long-lasting friendship or not? Say why you think that.
5. In the end, there was another connection between the two children, when two characters turned out to be one person. Explain this and say what this person did in the resolution of the story.
5. Why did the address change?
6. How do you think the book could be improved?
