

The Witches

by Roald Dahl

1) How did the boy and his grandmother get to be in the same hotel as the witches?

2) What do witches think children smell of?

3) How were the children of England in danger?

4) How would you describe Bruno to someone who hadn't read the book?

5) The Author writes this book as if witches were real. The pictures he paints of witches makes them truly terrifying. Write a paragraph about how Dahl depicts witches. You could say which parts of it you think are most convincing. What do you find most different about Dahl's images of witches to the usual ideas?
