

The Switchers by Kate Thompson

1. This book uses a lot more description than most books you will have read so far. Write a paragraph saying how you feel about that. Say if you think it adds to or takes away from the story; if you found it hard work to read. Say if you think you are you ready for this kind of book, and if you were absorbed by it or bored by it.

2. On page 137, Lizzie refers to "What is.." and "What isn't.." This forms an important part of the resolution of the problem and of the story itself. Explain.

3. If you were a switcher, what animal would you choose to be, and why?
