

## Class Talk

Next week I would like everyone to give a short talk to the rest of the class on something that they like doing.

Your homework is to prepare for this talk. You will only have to speak for around 5 minutes. Your talk could be on one of your hobbies, on a favourite book or film, on your computer, or on something that really interests you. It's up to you what subject you choose.

Try and work out carefully what you're going to say. You could write a few notes on a piece of paper to help you. It's a good idea to write the order that you're going to talk about things.

Visual aids will make your talk more interesting. Visual aids are things like pictures, posters, objects or props. You can even write on the class board if you wish.
