

## The Pharaohs

The kings of Egypt were considered to be more than just ordinary men. The people thought of them as \_\_\_\_\_ and because of this the Pharaoh could do anything he liked and have anything he wanted.

When the Pharaoh died, he had to make a \_\_\_\_\_ from this life to the afterlife. Special pointed buildings called \_\_\_\_\_ were constructed to allow the Pharaoh to make this journey. Inside the tomb everything that the Pharaoh would need for the journey was stacked around his \_\_\_\_\_.

Before the Pharaoh could be buried his body had to be \_\_\_\_\_, which was a careful and \_\_\_\_\_ process. First the body would be opened up and all the vital organs removed, like the \_\_\_\_\_, \_\_\_\_\_ and kidneys. These were stored in special jars called \_\_\_\_\_ jars which had a different God's head on each one. (The \_\_\_\_\_ were pulled out through the \_\_\_\_\_)

Then the body was filled with a substance called natron to \_\_\_\_\_ it out and after that the body was wrapped in \_\_\_\_\_ and placed in a coffin. Often there would be a death \_\_\_\_\_ placed over the face and several layers of coffins put around the original. They would also have the Pharaoh's picture or carved outline on the \_\_\_\_\_.
