

Internet Scavenger Hunt

YOU ARE GOING TO BECOME INTERNET
DETECTIVES FOR THE AFTERNOON !!!

I challenge you to use your searching skills to retrieve the following information and record it into your folder. Try hard to present your information in the most organised way possible.

(It is very important that you write underneath each picture/ piece of text which website you have taken it from)

1. Find a picture of the Indian flag and copy it to the top of your document. Use word art to write the title "India Internet Scavenger Hunt"
2. Find a map of India that has: New Delhi, Calcutta and Bangalore labelled. Use your own geographical knowledge to write some information by the side of the map. (You may want to say where it is located within the world, or talk about it's size.)
3. Copy and paste a picture of the Himalayan Mountains. What information can you find out about this mountain range?
4. Find a picture of the River Ganges. How long is this river? And research four different ways it is used by humans.
5. What is India's most famous landmark? Find a picture of this and some information about who built it and why.
6. There is a desert that is situated partly in India and partly in another country. What is this desert called and where is it situated?
