

I will practise bridging through 10 to + and— 2 digit numbers

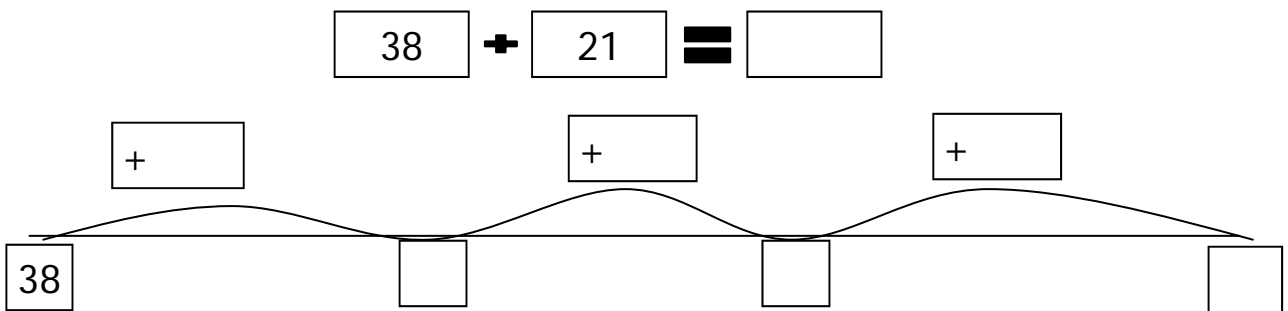

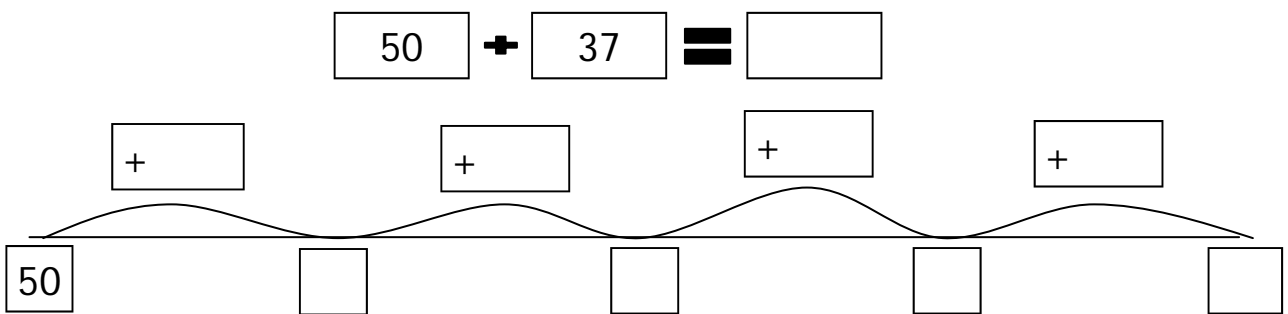

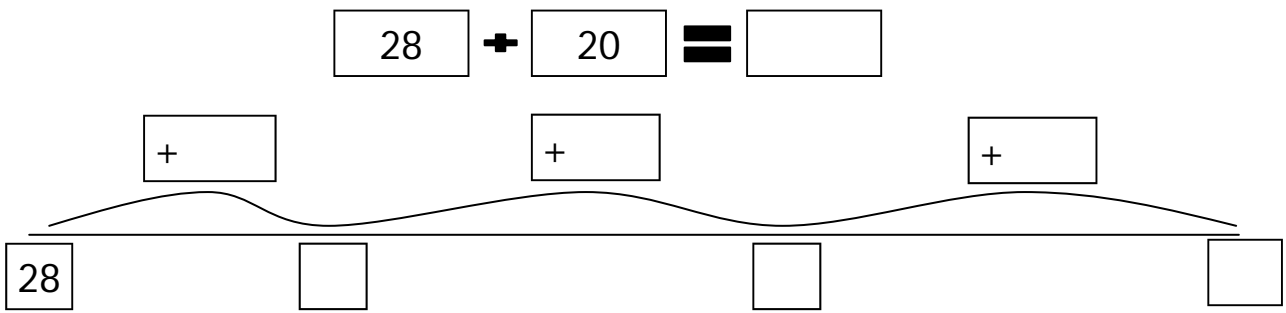

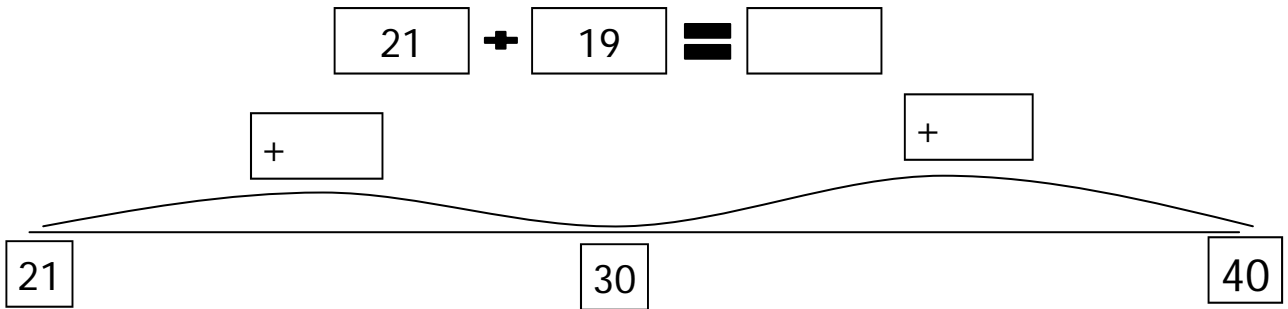

**Now draw your own number line to solve these calculations (remember to draw your lines with a ruler!)**

$47 + 32 =$	$21 + 39 =$	$48 + 32 =$
-------------	-------------	-------------

$78 - 45 =$	$90 - 65 =$	$76 - 39 =$
-------------	-------------	-------------

# I can find an answer on a number line by jumping to 10s numbers

# I can find an answer on a number line by jumping to 10s numbers
