

WALT: be able to use a table to help solve word problems.

Date:

Name:

CHRISTMAS PROBLEMS

★ Can you sort out a menu for each **Wise Man and their servant** (page) so that they spend **exactly 6 shekels** for each person **and** they all have a **different combination** of food and drink? BUT REMEMBER that they are travelling along the dusty roads. It makes travellers thirsty. They need **2 drinks each** to quench their thirst.

Tick your selections in these columns

CARMEN'S CAFÉ – FREE parking for Camels and Kings		WM 1	Page 1	WM 2	Page 2	WM 3	Page 3
Goat Sandwich (ideal speedy snack)	1 shekel						
Camel Burger (super snack for folks on longer journeys)	2 shekels						
Diet Donkey Burger (less fat)	2 shekels						
Camel Hump Pie (special offer - 2 lump helpings!)	2 shekels						
Sheep's Eye Pie (this'll see you through to your next stop!)	3 shekels						
Camel's Tail Soup (Very rare. Treat yourself, because you're worth it).	4 shekels						
Drinks – Water (fresh from the river, slightly brown in colour)	1 shekel						
Drinks – Water (clean and filtered. No additives).	2 shekels						
Drinks – Goat's Milk	2 shekels						
Donkey Wash	2 shekels						
Drinks – Ale	1 shekel						
TOTAL for each Wise man and for each page MUST be 6 shekels – no change given!
