

# Roman Sums!

Fill in the roman numbers then complete the sums.

$1 = \text{I}$

$2 = \text{II}$

$3 = \text{III}$

$4 = \text{IV}$

$5 = \text{V}$

$6 = \text{VI}$

$7 = \text{VII}$

$8 = \text{VIII}$

$9 = \text{IX}$

$10 = \text{X}$

$11 = \text{XI}$

$12 = \text{XII}$

$20 = \text{XX}$

$30 = \text{XXX}$

$40 = \text{XL}$

$50 = \text{L}$

$60 = \text{LX}$

$70 = \text{LXX}$

$80 = \text{LXXX}$

$90 = \text{XC}$

$100 = \text{C}$

$500 = \text{D}$

$1000 = \text{M}$

What would the Roman Numeral look like for the numbers...

1. 21 \_\_\_\_\_

2. 29 \_\_\_\_\_

3. 19 \_\_\_\_\_

4. 6 \_\_\_\_\_

5. 45 \_\_\_\_\_

What are these numbers?

XXIII \_\_\_\_\_

CL \_\_\_\_\_

CI \_\_\_\_\_

LVII \_\_\_\_\_

LXVI \_\_\_\_\_

Now try and do the Roman sums...

1.  $\text{I} + \text{II} =$  \_\_\_\_\_

2.  $\text{V} + \text{V} =$  \_\_\_\_\_

3.  $\text{V} + \text{IV} =$  \_\_\_\_\_

4.  $\text{X} + \text{V} =$  \_\_\_\_\_

5.  $\text{IV} + \text{VIII} =$  \_\_\_\_\_

6.  $\text{X} + \text{XII} =$  \_\_\_\_\_

7.  $\text{XX} + \text{VIII} =$  \_\_\_\_\_

8.  $\text{IX} + \text{IX} =$  \_\_\_\_\_

9.  $\text{XXIII} + \text{IX} =$  \_\_\_\_\_

10.  $\text{L} + \text{IV} =$  \_\_\_\_\_
