

LO: I know the number bonds to 10.

Write in the missing number:

1.  $2 + \square = 10$

2.  $6 + \square = 10$

3.  $\square + 9 = 10$

4.  $5 + \square = 10$

5.  $7 + \square = 10$

Some of these pairs add up to 10.  
Which pairs are correct?

Fill in the missing number.

14.  $10 - 2 = \square$

15.  $10 - \square = 6$

16.  $\square - 3 = 7$

17.  $10 - \square = 1$

18.  $10 - 5 = \square$
