Reflecting Light

Some things look shiny because the light bounces off them into our eyes. They reflect light.

Make a list of ten shiny objects that reflect light

Object	What is it made of?
1 mirror	glass
2.	
3.	
4.	
5.	
6.	
7.	
8.	
9.	
10.	

❖ Does the shape of the object make any difference to how shiny it is?

❖ How could you make something more shiny?

❖ How could you make something less shiny?

❖ Try out your ideas on a piece of foil to see if they work
